

# Suggestions on details of individual paper

---

EE406: CONTEMPORARY ECONOMIC ISSUES

SEMESTER 1/ 2021

FACULTY OF ECONOMICS, THAMMASAT UNIVERSITY

# Introduction

---

- Current issue related to economic topics and/or economic studies
- Please clearly identify the research question
- Please provide sufficient background information and current situation of this issue

# Literature review

---

- Separate the main categories of related publications
  - By research methods
  - By datasets
  - By sub-topics
- Each category should summarize the main findings of 5-10 related publications
- The last section of literature review should identify the search gap.
  - Lacking of the most updated data
  - Lacking of alternative data obtained from publicly accessible database
  - Lacking of new research methods

# Data & Research methods

---

- Please use the datasets and research methods introduced in this class
- The analysis can integrate data and methods from various class assignments
- In addition, the combination of other datasets and methods from other sources is welcome.

# Result analysis and discussion

---

- Relationship and causality identified by the computational results are the context of discussion.
- Key advantages of using these data/methods.
- Limitations of using these data/methods.

# Conclusion and policy recommendation

---

- Summarize the following issues:
  - Research question
  - Research gap
  - Data
  - Research methods
  - Key findings
- Suggest the policy recommendations
- Suggest the future improvement for this research

# Appendix

---

- No limitation on the number of pages in appendix
- Please separate the appendix into sub-sections.

# List of references (bibliography )

---

- Please use APA as the main format of referenced publications.
- Microsoft Word provides an assistance on creating the list of reference matched to APA format.
- Plagiarism is considered as a crime. Please properly cite all contents obtained from sources/publications.
