Assignment 11: Money Supply and AD-AS model

If Bank of Thailand decides to sell government bond, how this situation affect real interest rate (r) and real income (Y) in the IS-LM model and equilibrium price (p) and equilibrium output (Y) in AD-AS model. You should explain all the steps and the adjustment process similar to what I did in my lecture.

Deadline: Thursday November 24st, 2022 midnight
