**Note:**

1. This exam counts for 35% of your letter grade.
2. There is no hard-and-fast rule for the determination of letter grade. I cannot tell you anything with certainty for now. I will take into account everything for the consideration.
3. Based on historical standard, it is less likely that student can pass this course if your total score is less than 40% (out of the 100%).
4. Based on historical standard, it is less like that student can pass this course with "C" if your total score is less than 60% (out of the 100%).

Students are advised to discuss with me about your plan.
Send me an email if you want to meet with me tomorrow after class.
