

## Quiz 2

(5 points)

Time: 22 September 2021 at 15:00-15:30 (30 minutes)

There are 2 questions. You need to answer all two questions. Please **submit** your answers in a PDF file with a file name “**Quiz2\_StudentID\_FirstName Surname**” via BE Moodle class before **15:40**.

Write a paragraph to answer two questions below:

**Question 1: What are the problems in water resource management?** (2.5 points)

**Question 2: What could be a source of inefficient allocation of land?** (2.5 points)

## Question 1:

There are a lot of problems in water resources management such as 1. water quality, when the water is polluted it will cause water pollution and also affect the problems of limited supply for drinking water. 2. Access to clean water, the government suppose to provides fresh drinker water everywhere. So, the people won't affect by drinking unhealthy water. these problem will cause the water scarcity too, when its hard to find fresh water and that leads to demand of water.

## Question 2:

There are 3 main sources of inefficient allocation of land.

First, market problem that has poor market power and the property rights.

which affected by insecure property rights, undervaluing environmental amenities, and incompatible land uses.

Second, Public sector problems that caused by the inefficient tax and user fee structure.

Lastly, the failure of the government that the public policies sometimes affect land-use allocation
