(1) Do you agree that "This pandemic will reverse the progress toward gender equality"? Why?

I agree because I think that covid-19 affect everything. It changes the world. For example, It makes people lose their job. For instance, many women are working as a room cleaner, during covid women couldn't work and have no money for their children compare to men who work as a security guard.

(2) Using a country as an example, explain what policies the government of that country has implemented to address this problem.

For example, In Thailand, the country offer a protection for people who work in the hospital. The government offer a good equipment for doctor and nurse so they can still work and save people life during Covid-19.
