Rules for the class conduct

- Please arrive here on time. (8.05 am)
- Please avoid chatting. No facebook live or whatsoever forms of social media during my class.
- Please ask if you don't get what I'm saying. (This usually occurs mostly.)
- Feel free to share your thoughts; I'm opened to any discussions that are relevant to this course.

Evaluations

- Homework/Quiz: 15% (3 persons in a group)
 - Midterm: 40% (March, 13th 2017; 09.00 am – 11.00 am)
 - Final: 45% (May, 24th 2017; 9.00am – 12.00pm)
-
- Class material will be posted on Moodle (**psscd: 1579**)
 - Grading is based on class's distribution.

Evaluations: homework

Homework

- Group-work assignment (at most 3 in your group).
- See all the due date and assigned date in the syllabus.
- In the next lecture, give your list of group member. Write down in a white plain paper. (Give me “first name/last name/Student ID”)

Style of the question

- Numeric-based question
- Analytically conceptual question
- Data analytic

Agenda

- Logistic information
- Outline
- Overview of financial system

how I design this course?

BE offers many finance courses. FN311/FN312.

To avoid the overlap of materials, I only pick some topics that you shouldn't be able to see these in other courses.

Part 1: financial market

- ↓ **Credit market and Fixed-income instrument**
- ↓ **Capital market and primer on risky asset valuation**

Part 2: Financial institutions

- Understanding about the financial structure
- Theory of financial intermediation
- Banking management
- Financial stability and financial regulation
- Theory of Financial crisis

Readings

- Two main textbooks

Mishkin “Economics of money and banking”

Kent and Matthew “Economics of banking”

- Supplement readings: Journal, and articles.
