

Quiz 3

(5 points)

Time: 29 October 2021 at 14:50-15:20 (30 minutes)

There are 2 questions. You need to answer all two questions. Please **submit** your answers in a PDF file with a file name “**Quiz3_StudentID_FirstName Surname**” via BE Moodle class before **15:30**.

Question 1: (2.5 points)

“Thailand will formally announce a new pledge to achieve carbon neutrality by 2065 at the COP26 in UK in November 2021.”

- a. What could be the reasons driving Thailand to set carbon neutrality target at COP26?
- b. What policies could be used to achieve carbon neutrality in Thailand?

Question 2: (2.5 points)

“A cost-effective allocation of a uniformly mixed fund pollutant is where marginal costs are equalized for all sources or firms.” Do you agree with this statement? Explain the reasons supporting your answer.

1.) a) The carbon neutrality is to reduce and avoid future carbon emissions that provide harm to environment also elevate human health.

b) The change and reduction of transportation, in short-term most easy ways to reduce pollution from transportation is to provide more public transport in order to reduce emissions. The future policy of transportation is to change all current vehicles into electric transportation both private and public sectors.

2.) Disagree because cost effective allocation explain the level of emission but marginal costs usually tell pollution costs that equal level of reduction.
