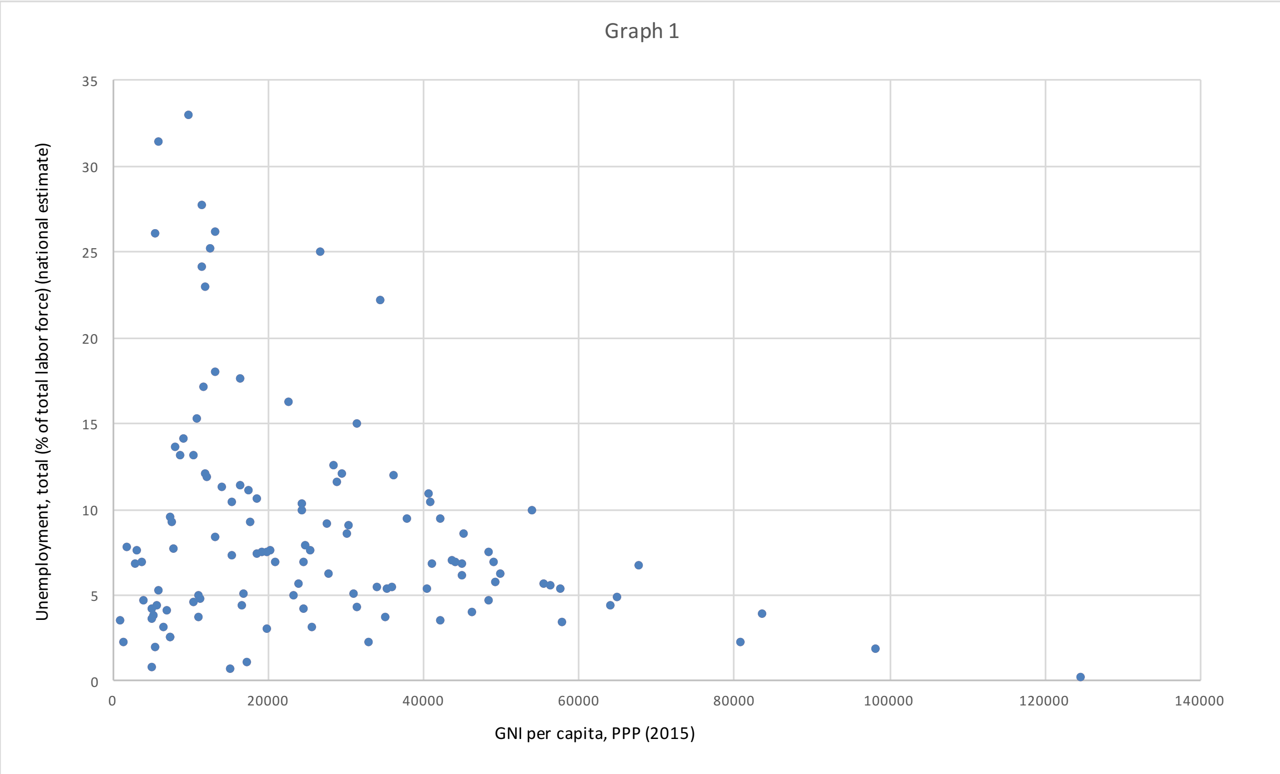
ASSIGNMENT 1 - Charlotte VIENOT

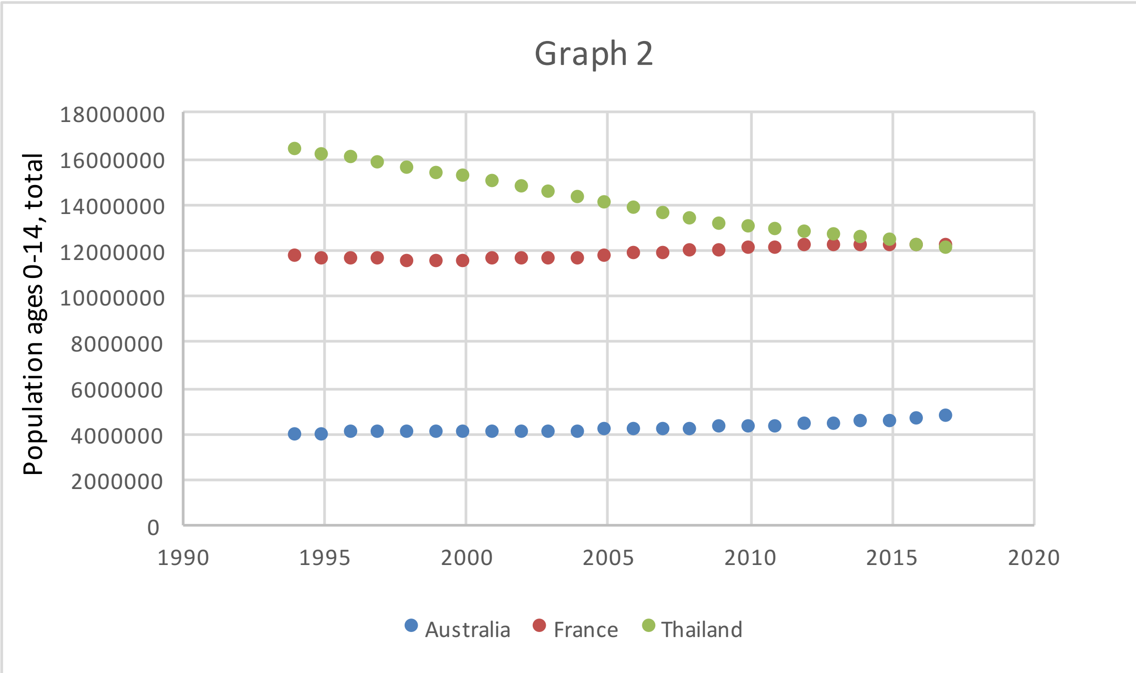
Graph 1



high ?

When the GNI per capita is low, unemployment is quite high. Moreover, when the GNI per capita is strong, unemployment is almost non-existent.
Nevertheless, we note that the unemployment rate is mainly concentrated between 5% and 15% of the population.

Graph 2



The 0-14 age group in Australia and France is fairly stable over the last 25 years. In contrast, the Thai 0-14 population has declined significantly over the past 25 years.

So, what can you imply from 0-14 age group popn ?

Any implication of this variable to the economy ?
