

Gaming Community Intern

Primorden is an MMORPG styled in hand-illustrated 2.5D art. Our aim is to create a persistent MOBA-like experience with socially competitive gameplay that is not only fun, but creates meaningful experiences and friendships that people can engage in for years to come.

Do you love games like DotA, League of Legends, Ultima Online, Eve Online, Runescape, Albion Online, or Realm of the Mad God?

As part of our Growth and Community Intern team, you'll be helping us shape our online social presence and build awareness for our brand. Additionally, you will have the opportunity to engage with our passionate community and assist in organizing exciting gaming events to further enhance our community's experience.

How you will make an impact:

- Foster our online community on Discord and Twitter
- Help build and grow our presence online with relevant, well-crafted, and engaging content across multiple channels
- Join in discussions as we map out our strategy, presenting fresh ideas and helping the team push the community forward
- Test the game, seeking out bugs, and helping us "find the fun" through the game's production

Your character build:

- Familiar with the basics of marketing and social media
- Passionate about gaming and gaming culture
- Excellent verbal and written communication skills in English
- Owns a Windows laptop with medium-level performance by today's gaming standards
- Available to visit our Bangkok office at True Digital Park at least several days a week
- Knowledge and experience in MMORPG and MOBA games
- Team player who is looking to learn and challenge themselves
- Familiarity with applications like Adobe Photoshop, Illustrator, and Premiere Pro is a bonus

If this sounds interesting to you, we'd love to speak with you more about it. Please scan the QR code to apply, and we can set up a casual, no pressure introduction.
