Note:

- Any student scoring under 40 points will receive an F (fail) grade and must re-enroll without charge in Essential Mathematics for Economics and Business in summer 2020 (summer Math camp). If students obtain a C or better grade from MA216 or ST216 in academic year 1/2019 or 2/2019, re-enrollment will be unnecessary.
- Students absent from the final exam may request a make-up exam by contacting the BE office within **August 30, 2019**. Missing summer Math Camp exams results in an automatic F grade. If the make-up exam score is under 40 points, condition 1 applies.
- Students who did not register previously for summer Math camp must pass MA216 or ST216 this academic year with a C grade or better, or enroll in summer Math camp 2020 and pass that exam. There will be a registration fee for this reenrollment.
- The BE International Program will not process requests by students who fail to comply with these required conditions.
