***Homework is counted for 1.5 each and everybody got additional 1 mark.**

If you have any problem regarding your homework score, please come to see the Homework Assignment Submission Form (the form you signed when you submitted homework at the BE office) for a proof (before 2nd May).

An email without a hard copy sent on time is not counted.

A late submission (email/hardcopy) is also not accepted.

I cannot compromise since this will violate the other students' right.

Example for the calculation of total score

- A student submitted all 6 homework
This student will get $(6 \times 1.5) + 1 = 9 + 1 = 10$ marks.
- A student submitted 5 homework
This student will get $(5 \times 1.5) + 1 = 7.5 + 1 = 8.5$ marks
- A student submitted 4 homework.
This student will get $(4 \times 1.5) + 1 = 6 + 1 = 7$ marks
