Question 1: (2.5 points)

"Thailand will formally announce a new pledge to achieve carbon neutrality by 2065 at the COP26 in UK in November 2021."

a. What could be the reasons driving Thailand to set carbon neutrality target at COP26?
b. What policies could be used to achieve carbon neutrality in Thailand?

a) Because thailand is the one of Paris agreement. Thailand need to achieve to get benefit in form of good environment.

b) Thailand should use mitigation policy in order to reduce the emissions by imposing tax or planting more trees to reduce all probability damges and absorb carbon

Question 2: (2.5 points)

"A cost-effective allocation of a uniformly mixed fund pollutant is where marginal costs are equalized for all sources or firms." Do you agree with this statement? Explain the reasons supporting your answer.

I disagree because the mixed fund pollutant focus on how to minimize the cost of control. And each firm does not create the same total damage. So, mixed fund for each firm can not be equal.
