

Second report

Refer to the last discussion with Arjarn, our group divided the essay body into 6 parts, which will cover 4 topics on SARS epidemic. Economic impact of SARS, Impact of SARS on labor market, SARS and globalization, and Consumers' and investors' confidence moving forward. As Arjarn said our essay will cover too many topics and it will be better if we focus on only one topic and dig deep into the information on that topic. From the suggestion and our discussion we came out with one main topic that our group will aim at the essay's target to the SARS epidemic and its effects on the labor market. So we will go over the history of SARS and dig into the labor market of China and Hongkong during the SARS epidemic.

We have done 4 out of 6 parts, which are :

- introduction of SARS
- Statistic of SARS cases
- historically of epidemics on Economics
- How epidemic affect labor market of Hongkong

We will expand further on how these epidemics cause higher Unemployment rate and we will find more information about how the government of Hongkong and China help the labor in their country.

Moreover, we will do further research about policy on the labour market to cope with higher unemployment rate due to the pandemic.

Lastly, we will prepare the presentation to explain all the crucial point in this topic
