

HW

market supply for kidney

P

- At the price 300, it has 2 people willing to sell kidneys
- Below 300 one person sells his kidney
- Under 100, no one want to sell a kidney

## 2) How D & S increase in Extreme Cases

In case of increase demand and supply extremely.

If many people want to buy a kidney at low price but no one sell it due to scarcity of a kidney, The demand will grow up. At the same way, supply also increases because the increase of kidneys' price direct variation to supply.
