

EE432 Monetary Theory and Policy 2021S2 Mid-semester Exam Instruction

Regarding the EE432 Monetary Theory and Policy's virtual mid-semester exam scheduled on March 5, 2022 during 9-11 am, I would like to clarify some following points. Please be informed that the mid-semester exam would be **an open-book proctored exam with a paper-based format**. You need to **write your answers (not typing) on A4 papers and then convert to a pdf file**.

One more thing, you need to ensure you can complete and submit in a fixed duration. The BE admin would *grant extra 15 minutes after 11 am for all of you to prepare answers for submission in a **single pdf file***. In other words, **the answer submission has to be completed by 11.15 of March 5, 2022**.

The BE admin will set up a google classroom as an official platform for the remote exam and channel for submission. Please follow all BE instructions. Before sending your pdf file, please make sure that you have ***written your name and student ID on the first page***.
