

## **Job opportunity at Sasin Management Consulting**

Sasin Management Consulting (SMC) was established with the goal of providing practical business solutions to increase the competitive advantage of our client. We provide the services leveraging Sasin's extensive business knowledge, resources, and expertise to help our clients improve performance and build sustainable competitive advantage. SMC believes that in order for a business to be successful, each of these key components must be professionally assessed, planned and managed: Strategy and Policy, Organization and Human Capital Management, Process and Infrastructure. We also stress on the implementability of every consulting recommendation we provide.

We are currently looking for few positions of entry-level analysts (Considering both full-time and project-base applicants). High caliber students who are interested in pursuing professional consultancy career and possess following qualifications are encouraged to apply.

### **Qualifications**

- Minimum GPAX of 3.00
- Strong analytical and research skills
- Background in Finance, International Business, Economics, Marketing or other related fields
- Engaging, active, outgoing and eager to learn
- Outstanding team player
- Communication skill
- Good command of English (well-spoken and well-written)

**All applications will be treated in strictly confidential and short listed candidates will be notified. Applicants interested in the opening positions, please submit your resume at: [SMCrecruitment@sasin.edu](mailto:SMCrecruitment@sasin.edu)**
