

SET Research Funding Project for the academic year 2021/2022

The Stock Exchange of Thailand (SET) provides funding for research for the bachelor's degree and higher studies relevant to the following principal issues:

1) The researcher may propose research topics of interest that are demonstrably beneficial to developing the Thai capital market and increasing efficiency in capital market participant activities.

a) Lessons from the Novel Coronavirus 2019 (COVID-19) pandemic and a recovery path for the Thai capital market.

b) Impacts on capital markets of modern technology.

c) Benefits and issues to consider when applying environmental, social, and corporate governance (ESG) information to the capital market business.

Students seeking funding should email the following information to be_thammasat@econ.tu.ac.th by Friday, 10 September 2021 at 4pm:

- 1) Research topic
- 2) List of researchers and advisor
- 3) Research framework (proposal)

Please note: If students wish to participate, but lack a topic or advisor, please contact the B.E International Program for assistance.
