### Course Description and Objectives:

This course aims to provide the student with a deeper understanding and appreciation of the complex questions and tradeoffs facing any investor, along with the necessary theoretical background for critically evaluating alternative investment strategies and the modern literature on investments. The course is designed to provide a conceptual framework for analyzing investment decisions, and the course will entail the use of a number of different statistical tools, ranging from the notion of probability distributions through linear regression analysis.

### Required Textbook and Recommended Readings:

[Required Textbook] Investments by Zvi Bodie, Alex Kane, Alan J. Marcus and Ravi Jain, Asia Global Edition, McGraw-Hill. ISBN: 978-007-126228-6.

The Bodie, Kane and Marcus (BKM) book provides a comprehensive treatment of modern investment theory. We will not be able to cover the entire book in a single semester class. Additional readings will be assigned at the end of each lecture to complement the book. Some of these readings will be fairly technical and students are not expected to understand every detail. Students are also encouraged to keep abreast of daily events in the financial markets which are covered in the media to be discussed in class.

### Course Evaluation:

Homework (15%), Investment challenge (15%), Midterm Exam (25%), Final Exam (45%).

Details of the investment challenge will be discussed in class. Hardcopies are required for the submission of all homework assignments which are due at the beginning of the class. Late homeworks will not be accepted under any circumstances.

Students must take both exams to pass the class. Note that there will be no make-up exams without written documentation of an emergency such as hospitalization, military service, death in family. Exams will NOT be rescheduled to facilitate holiday travel. Letter grades you receive in the course are final. If you disagree with how the exams are graded, you may submit a request for re-grading in writing. If the request is granted, the entire exam will be re-graded. Note that attendance is required for the course.

### Academic Integrity:

The rules of academic integrity will be strictly enforced and will not be tolerated under any circumstances. Please refer to the relevant Thammasat University's academic integrity guidelines.
