

Cowry Global Summer School 2025

Building Behavioural Intelligence

delivered by
Cowry Academy

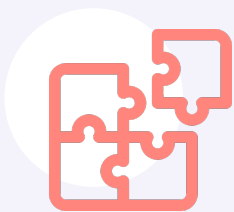

4th - 8th August 2025

Kickstart your career in behavioural science

Over the past nine years, Cowry has given the brightest students and young professionals from across the globe the opportunity to be at the forefront of the industry and learn from our experienced team of behavioural consultants with our free, virtual Summer School programme.

Scholars can expect to learn from the most influential figures in behavioural science and work together to create meaningful change around the world. This year, under the theme:

Building Behavioural Intelligence

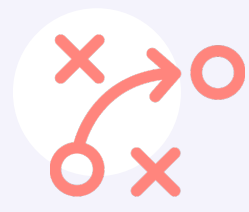

Integrate

Integrate diverse disciplines and the latest AI technology to propel BeSci capability forward.

Innovate

Pioneer novel applications of behavioural intelligence to drive transformational change and innovation.

Implement

Develop strategies for roll-out that translates data-driven approaches into behaviourally fluent solutions.

What's involved?

Over this immersive experience taking place during the first week of August, successful applicants will experience:

Working on a live charity brief

Mentorship from Cowry consultants

Building a network of global scholars

Bespoke lectures from BeSci's best
