### **About the Oxford Thai Foundation**

The Oxford Thai Foundation is a scholarship programme to help promising young professionals from Thailand to pursue advanced degrees at the University of Oxford in the broader field of public policy. The programme wishes to create a strong network of future thinkers and leaders, built on mutual respect and trust developed during their time at Oxford, as well as through activities organised by the Foundation upon their return to Bangkok. The goal is a more cohesive and equitable society, built on an inclusive public policy development platform.
