There are 2 questions. You need to answer all two questions. Please **submit** your answers in a PDF file with a file name “**Quiz3_StudentID_FirstName Surname**” via BE Moodle class before **15:30**.

Question 1: (2.5 points)

“Thailand will formally announce a new pledge to achieve carbon neutrality by 2065 at the COP26 in UK in November 2021.”

- a. What could be the reasons driving Thailand to set carbon neutrality target at COP26?
- b. What policies could be used to achieve carbon neutrality in Thailand?

Question 2: (2.5 points)

“A cost-effective allocation of a uniformly mixed fund pollutant is where marginal costs are equalized for all sources or firms.” Do you agree with this statement? Explain the reasons supporting your answer.

1. (a) The reason that driving Thailand to set carbon neutrality target at COP 26 is Thailand need to reduced risk and damages from the climate change that now has a severe damages to many countries around the world.

(b) The policies that could be use is Carbon Pricing policies such as Carbon tax by set a tax on every usage of energy to limited the use of energy and to reduced the carbon emitted

2. Yes, I agree to this statement. Because The uniformly mixed fund pollutants policy is the policy that has two source of emission where the quantity of source 1 plus source 2 will equal to the all source of firm.
