5. Quantitative Analysis, communication, and information technology

Applicability	Expected Learning Outcomes	Evaluation Method
●	1. Students select and apply appropriate statistical and mathematical methods for data processing, interpretation, conclusions, and recommendations to resolve problems.	Class participation/presentation and report
●	2. Students communicate effectively and select appropriate presentation methods.	Class participation/presentation and report
●	3. Students use information and communication technologies appropriately to gather data as well as process, interpret, and present results.	Class participation/presentation and report

Remark: ● Primary expected outcome ○ Secondary expected

Main Text: There is no specific textbook for this course. However, I will post journal papers and some good readings on "how to write" on Google Classroom.

Grading Criteria:

1. Group assignments	15%
2. Paper summary	20%
3. Class participation and comments	15%
4. Final paper (presentation)	10%
5. Final paper (report)	40%

About the assignments:

1. **Group assignments** – Each student is expected to lead at least 2 paper discussions.
2. **Paper summary** – Students are required to submit a 1-page summary of each paper that will be discussed in class. The summaries are due on the Sunday before class.
3. **Final research report (your seminar paper)** - The paper should be between 15-20 pages long (double spaced), **excluding** graphs, tables and figure bibliography and appendices. The paper should be well-organized in different parts. For example, 1) introduction 2) literature review 3) theoretical framework and methodology and 4) findings 5) conclusion. We will discuss about each part in more details in class.

Tentative Class Schedule (Tentative):

Week	Agenda	Assignment/Reading
