Course Description

This course studies the basic principles of financial management for business as well as the responsibilities of financial managers in order that they can perform their best to maximize the enterprise value. Discussions will cover financial analysis, cash flow analysis, financial planning and control, fundamental analysis on risk and return, time value of money, current asset management, fixed assets investments, allocation and acquisition of funds, short-term and long-term financing, and costs of financing.

Prerequisites: AC201 Fundamental Accounting

Course Objectives

This course aims at developing students to have financial knowledge to deal with many issues in business finance. It will also form a foundation for further finance courses. Key objectives of this subject include:

1. to study the basic principles of financial management for business;
2. to provide an introduction to the theories of finance and decision tools for financial managers;
3. to discuss the fundamental of financial planning and control, investment, and capital financing.

Course Withdrawal With “W”	March 22-27
Last Day of Classes	May 13
Final Examination	Thursday, May 25, 2017 (9.00 AM - Noon)

Class policies

- 1) Lectures will stress the most important issues addressed in the readings. You are responsible for all material covered in class and assigned readings. Lectures may go beyond the scope of the textbook. Therefore, it is important for you to attend and participate in class.
- 2) There will assignments as deemed appropriate to accommodate effective learning. Each assignment will be graded based on the quality of the analysis and the ability to apply the principles of financial management for managerial decision. Lecture notes, exercises, and guided solution to each lecture, as well as other useful materials, could be accessible from class Moodle.
- 3) You are responsible for all announcements and changes made in class. However, there will be no make-up quiz and final examination without prior consent from the instructor. If a student has a legitimate, verifiable reason (e.g., doctor's note), a separate comprehensive examination will be given.
