

EE382 1/2021

Group Assignment 5: Group project empirical literature review

Based on the paper's 3 key objectives. Analyze finding of each objective on service industry your group choose

1. Factors affect that service industry growth
2. Labor productivity issues (and measurements) in that industry
3. Impact of that service industry on economic growth
 - 3.1 Does Baumol's Cost Disease implication on this relationship apply to your group service industry?
 - 3.2 You can also answer this question based on other issues or arguments other than Baumol's Cost Disease argument.

Deadline: October 6th, 2021 (midnight)

Note: Please name your file in the group assignment folder as

Assignment_6_Service_sector_growth_and_economic_growth
