1. Summarize "On the Problem of Form" in your own words.

On the problem of form, it explained about the form that seemed to be liked our body which had heart or spirit in our body. There were always good or bad people who will lead us to some ways which were good and bad. But no matter we will go either way, it came from our spirit or our heart which we wanted it to be or to become.

2. On page 51 of "Understanding Comics - Chapter 2" is a big triangle. Explain in your own words how to use the triangle.

The triangle represents the art of the comics. There are reality, language and the picture plane which are on the different corners of the three corners. Triangle means there is reality in the picture which will continue to change into two ways.

- The language will represent the ideas since the picture will become more abstracted of reality but the picture still explains the reality anyway if we want or believe it to be.
- The picture of comics represents the beauty of art since the picture plane has its own beautiful style that makes the picture of comics becoming beautiful. But what the picture of comics will go will depend on the artist who wants it to be.

3. Is "No. 5, 1948" good art? Explain your answer using examples from the readings.

I think 'No. 5, 1948' is good art because every painting needs the artist's imagination so that it becomes a good art. And the painting show the style of the picture of the comics which is the picture plane, it will represent the beauty of art.
