1. The value of Katherine Kocher's liquid assets = checking account + savings account

   = $850+$1,200 = $2,050

2. The value of Katherine Kocher's real estate assets = market value of her house

   = $98,000

3. The value of Katherine Kocher's personal assets

   = furniture and appliances + home computer and laptop + car

   = $12,000 + $3,300 + $12,500 = $27,800

4. The value of Katherine Kocher's investment assets

   = certificate of deposit + retirement account

   = $5,500 + $38,550 = $44,050

5. The total value of Katherine Kocher's assets

   = liquid assets + real estate assets + personal assets + investment assets

   = $2,050 + $98,000+ $27,800 + $45,050 =$172,900

6. The total value of Jamie McFarland's assets

   = liquid assets + real estate assets + personal possessions + investment assets

   = $4,500 + $128,000 + $62,000 + $73,000 = $267,500
