

Announcement for EE463 Group Presentations

Group presentations will take place from 18 April onwards. Please refer to the guidelines below on how the presentations will be conducted.

- The order of the presentations is based on group number (Group 1 will present first, Group 2 second, and so on).
- I expect at least three (3) groups will present on 18 April, but Group 4 will need to be prepared just in case time allows.
- Each group will allocated a maximum of 30 minutes for the introduction, presentation, question and answer and feedback.
- Introduction: All group members will briefly introduce themselves and mention their respective contributions (background, key issues, government policy or conclusion)
- Presentation. Please limit the presentation to 15 minutes.
- Question and answer. Students will be given the opportunity to ask for clarifications or provide comments. At the end, I will provide feedback on the group presentation.
- All group papers and presentations are available in BE Moodle.
- Attached is a table that includes the group list, titles and names of group members.
