

Second report

As the last discussion with Ajarn, we decide to pick the topic about exporting chickens in China. However, the informations about this topic are not sufficient so we will add more topics to cover the area of the avian flu in China and we add more information about

- Urbanization and disease spread
- Official responses to avian flu threats
- View from the chicken farm owners
- Farmers attitude and behavior throughout the avian flu

Now,we will find the information more about the effect or impact of the profit of other countries that export chickens to China and rearrange the topics to be more reasonable. Moreover, we will make sure that the abstract, conclusion ,and the reference are done before the deadline.

Lastly, we will prepare the presentation briefly and cover every crucial point in this topic.
