

SENSE REFINEMENT

Study the science of art. Study the art science. **Develop your senses** – especially learn how to see. Realize that everything connects to everything else.”

Leonardo da Vinci

A photograph of a modern, curved building with a large glass facade reflecting the sky, set against a clear blue sky. The building's design is fluid and organic, with a prominent, large, curved glass section that reflects the sky and clouds. The sky is a deep blue with some light, wispy clouds. The building's form is a mix of white and light blue, with a grid-like pattern on the glass sections.

“If you want an easy life, don’t be an architect.”

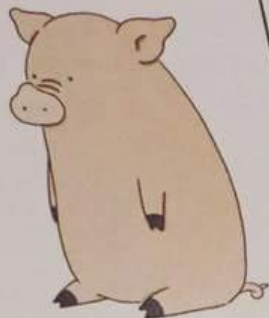

Zaha Hadid

The Five Senses

A PHILOSOPHY OF MINGLED BEINGS

MICHEL SERRES

“Once words came to dominate flesh and matter, which were previously innocent, all we have left is to dream of the paradisiacal times in which the body was free and could run and enjoy sensations at leisure. If a revolt is to come, it will have to come from the five senses!”

- Michel Serres

SENSE

VS

DATA

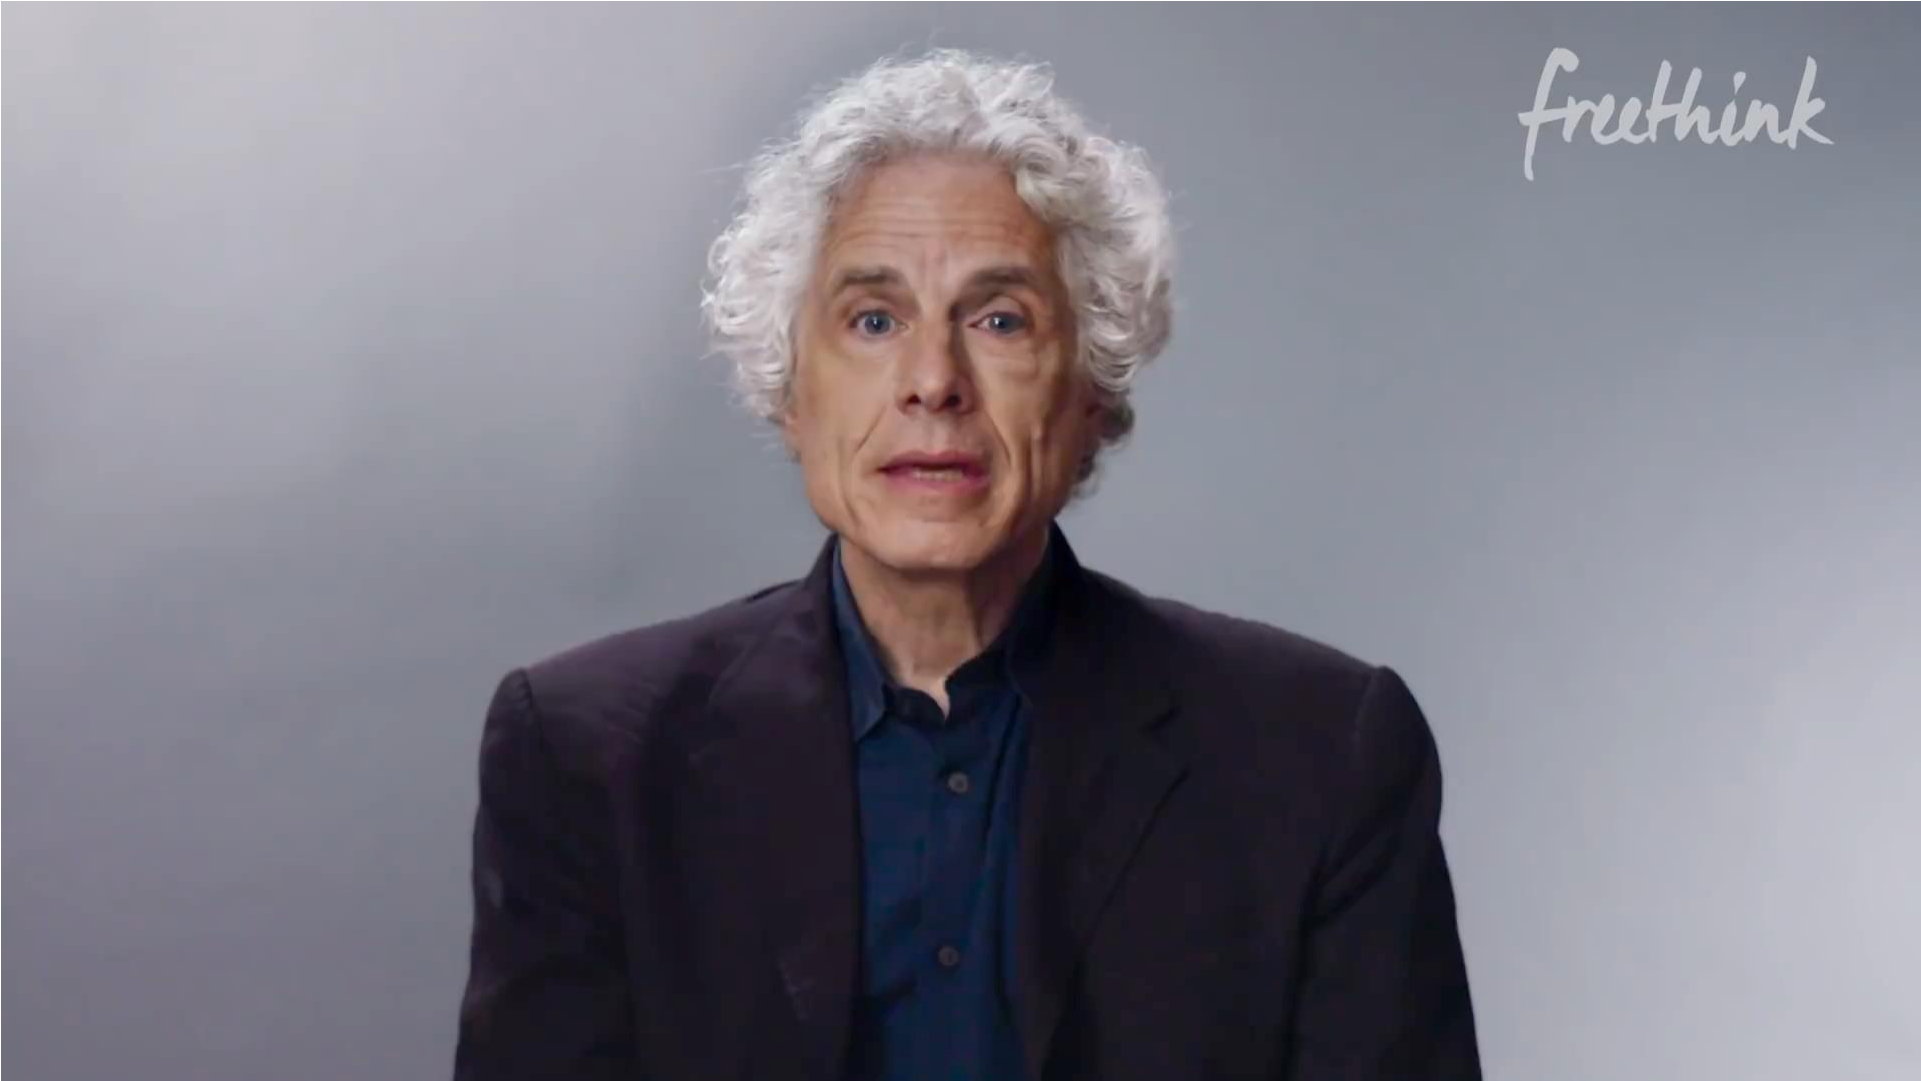

Have you
ever get
lost from
using it?

If you were Amber,
what would you do
when you had
entered the desert
road for a while?

Sometimes people
turn off their sense
and too much trust
the data...

Vice versa, what
would happen?
