From the LGBT group problem, that related to the discrimination. In Thailand, I think that it's very usual to see in our society. For example cases. In the news, some people will racist or do something that not quite well to the LGBT group. For me, this problem is very bad and need to take care thoroughly. Because it's not right and the LGBT group are also human like us. They also human being and deserve human right the same of us. Moreover, the government should back up against the LGBT group by impose some policy that promote gender right, gender equity for the LGBT group. because Nowadays. This kind of policy is not enough to protect the LGBT group in Thailand.
