Hello class,

Please find below your updated class participation data. For the plagiarism homework, I gave (full) credit to everyone that uploaded a PDF file named with your student number. I did not grade your formatting or answers, but clearly some students put more effort into the assignment than others. This was a practice assignment for the essay, so if you did not put much effort in here, you need to put significantly more effort into the essay itself. I will be providing answers to the quiz in the near future.

You might also use the names in the list for working on the group-member list. I have 55 people on the list, but only 53 students have signed up with Moodle.

Please let me know if you have any questions.

Russell
