

Peer Evaluation Form for Group Work

I am strongly against “free riding”. In order to mitigate the problem, each person will grade the participation and contribution for all the other team members. Your grade will be the product of the group grade assigned by me and that assigned by your group members. For instance, if your group grade is 25 and your participation grade is 0.8, you earn 20/25 (that is, 25×0.8). However, I set the **minimum participation grade at 0.7**. Finally, I require you turn in the peer evaluation form individually before the final exam.

Your name _____

Write the name of each of your group members in a separate column. For each person, indicate the extent to which you agree with the statement on the left, using a scale of 1-4 (1=strongly disagree; 2=disagree; 3=agree; 4=strongly agree). Total the numbers in each column.
