1. Summary of On the Problem of Form

Ans. The time that human's necessity is at its peak and satisfied by all. Human to tend to satisfy its other need, inner urge. This urge is in the way that creates new value for human other than the normal necessity but the spiritual need that lead us to evolution. Many people does not see this spirit need because they are being blinded by the mysterious object call "Black Hand. The Black Hand tries to prevent and eliminate evolution from its existence by several ways. Such as , fear of the clear path , fear of freedom , and deafness to the spirit. Because of this so called ,Black Hand , most of the human will not possess such spirit with inner urge to satisfied with. Which later on affected the people who have this new value to be looked as crazy and idiots, even though it is blocked by many factors, this value will thrive on and finally be accepted as new value and will become the next wall blocking the emerging new value to come. Each creative artist will have these value. But each with different value of form, but at the same time can be all equal to each other. The form comes from different form each depend on the age of human and people. Later in time, the form will be widely accepted and pass on to be national phenomenon and finally accepted as national style. Form may be good or bad, being rejected or accepted, but the important part of the form is it does come from the inner urge or not. If it does then it is will contribute much to mankind because it represent our inner need of each individual of human. Which we lack knowing and need fulfilling in order to strive on and evolve into a new stage.
